

Jaka Lounge agency is providing complete human resource management support for companies. We put our special focus on high-quality selection process while we believe that knowledge and competencies bring brilliant results only when they're combined with adequate motivation. We are supporting our client [Optimal Systems](#):

We offer a wide range of support and professional services for our customers. Our main product is enaio®. With our Enterprise Content Management (ECM) software enaio® blueline, we offer proven best-practice solutions with maximum user comfort and functionality, tailored to the industry-specific challenges of your company or administration. In order to expand our team, we are looking for:

Web Designer

What is the job about:

- building and maintaining a complex web (Angular) application that fully supports multiple platforms (browser, native mobile apps)
- working together in a highly agile and international team of developers
- developing enhanced navigation structures and establishing new, responsive web designs
- developing ideas and concepts and turning them into both functional and appealing features.

Your skills:

- HTML, TypeScript/JavaScript and CSS/SCSS
- Proficient with UI and UX principles as well as visual design fundamentals including brand identity, layout and color
- thorough experience with Adobe Illustrator and Photoshop
- worked with Angular before and are able to use RESTful APIs.

If you believe your experience and knowledge fit the criteria listed above, please submit your CV to: nina.djordjevic@jakalounge.com
